

BEBPA 2025 Reference Material Conference

25-26 June 2025

Virtual Conference

DAY 1

Session One: Overview Of A 2-Tier System for an In-House Commercial Reference

DAY 1

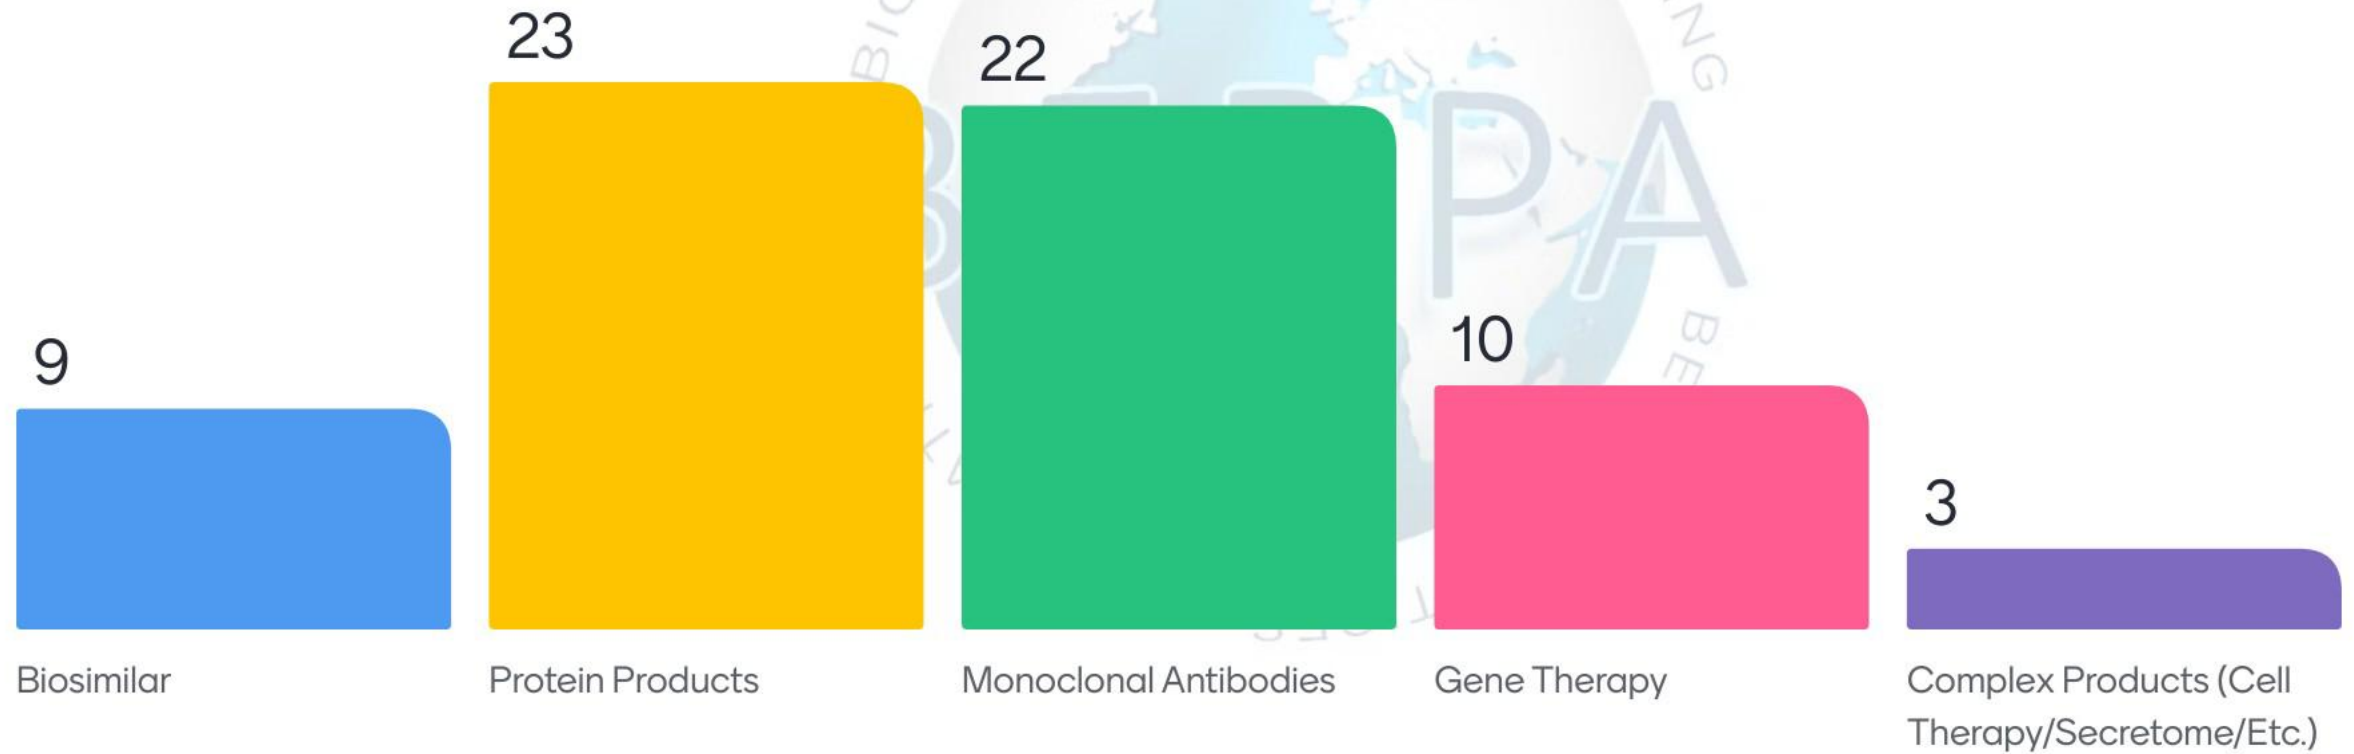

Session Chair: Laureen Little

President

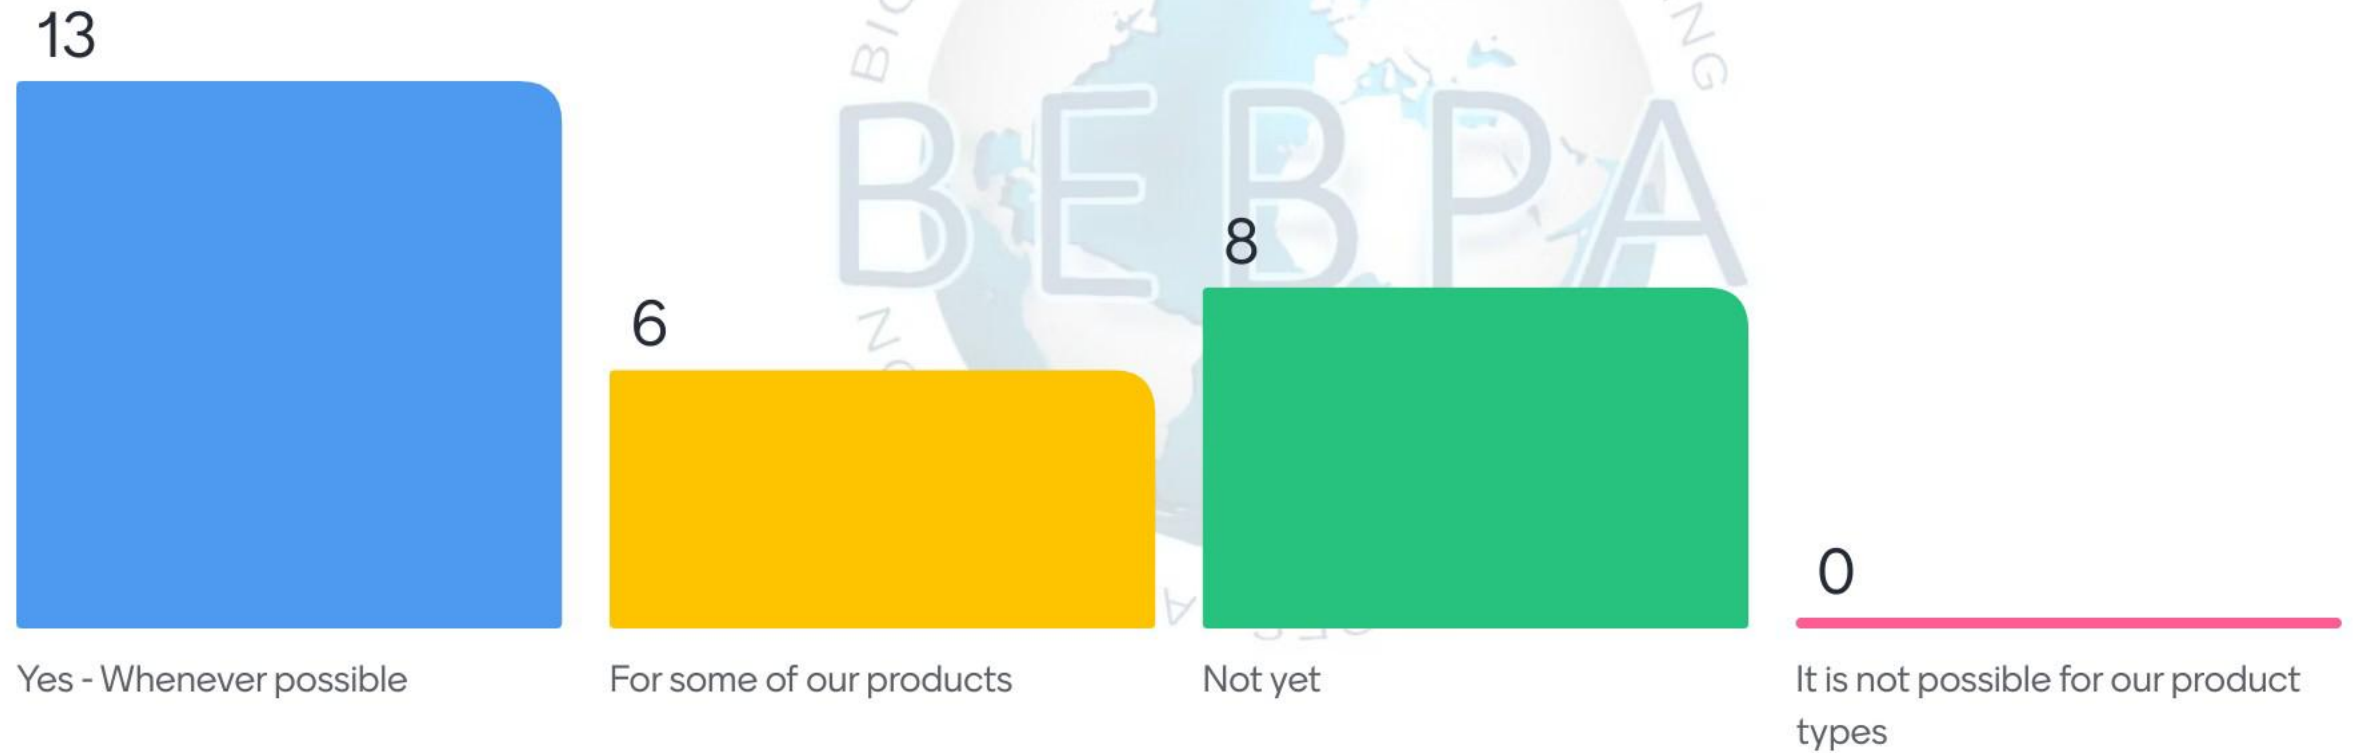

BEBPA

Audience Surveys

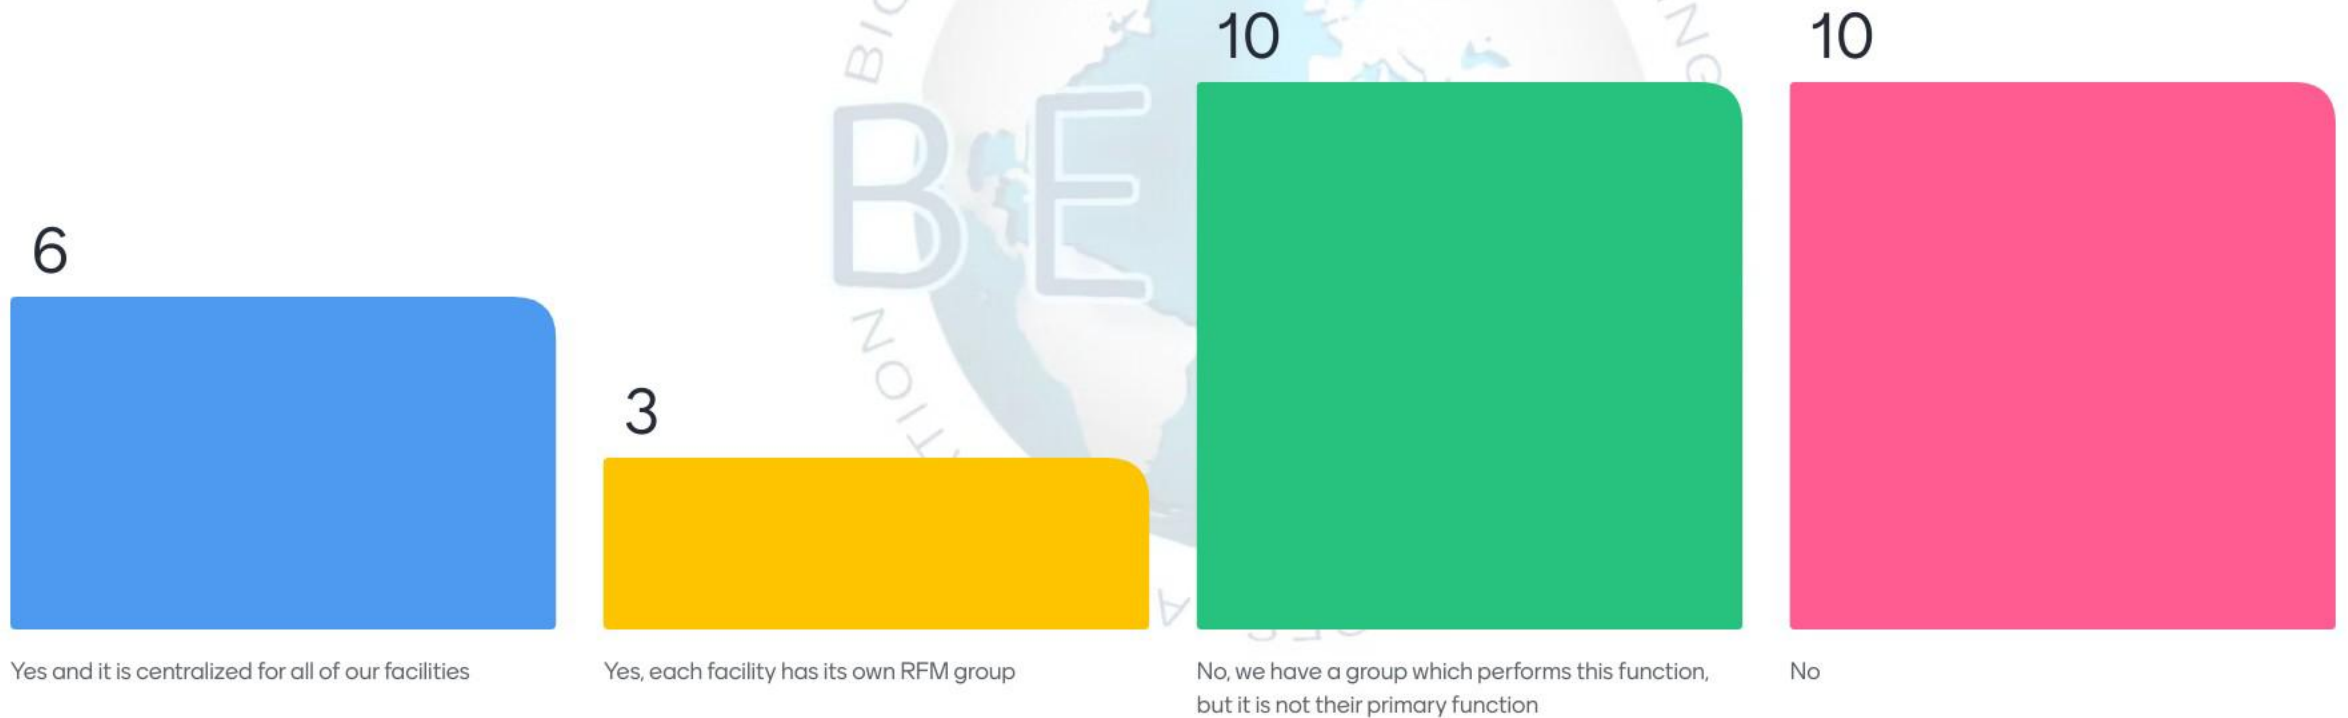

1.1 Which type of product do you work on?

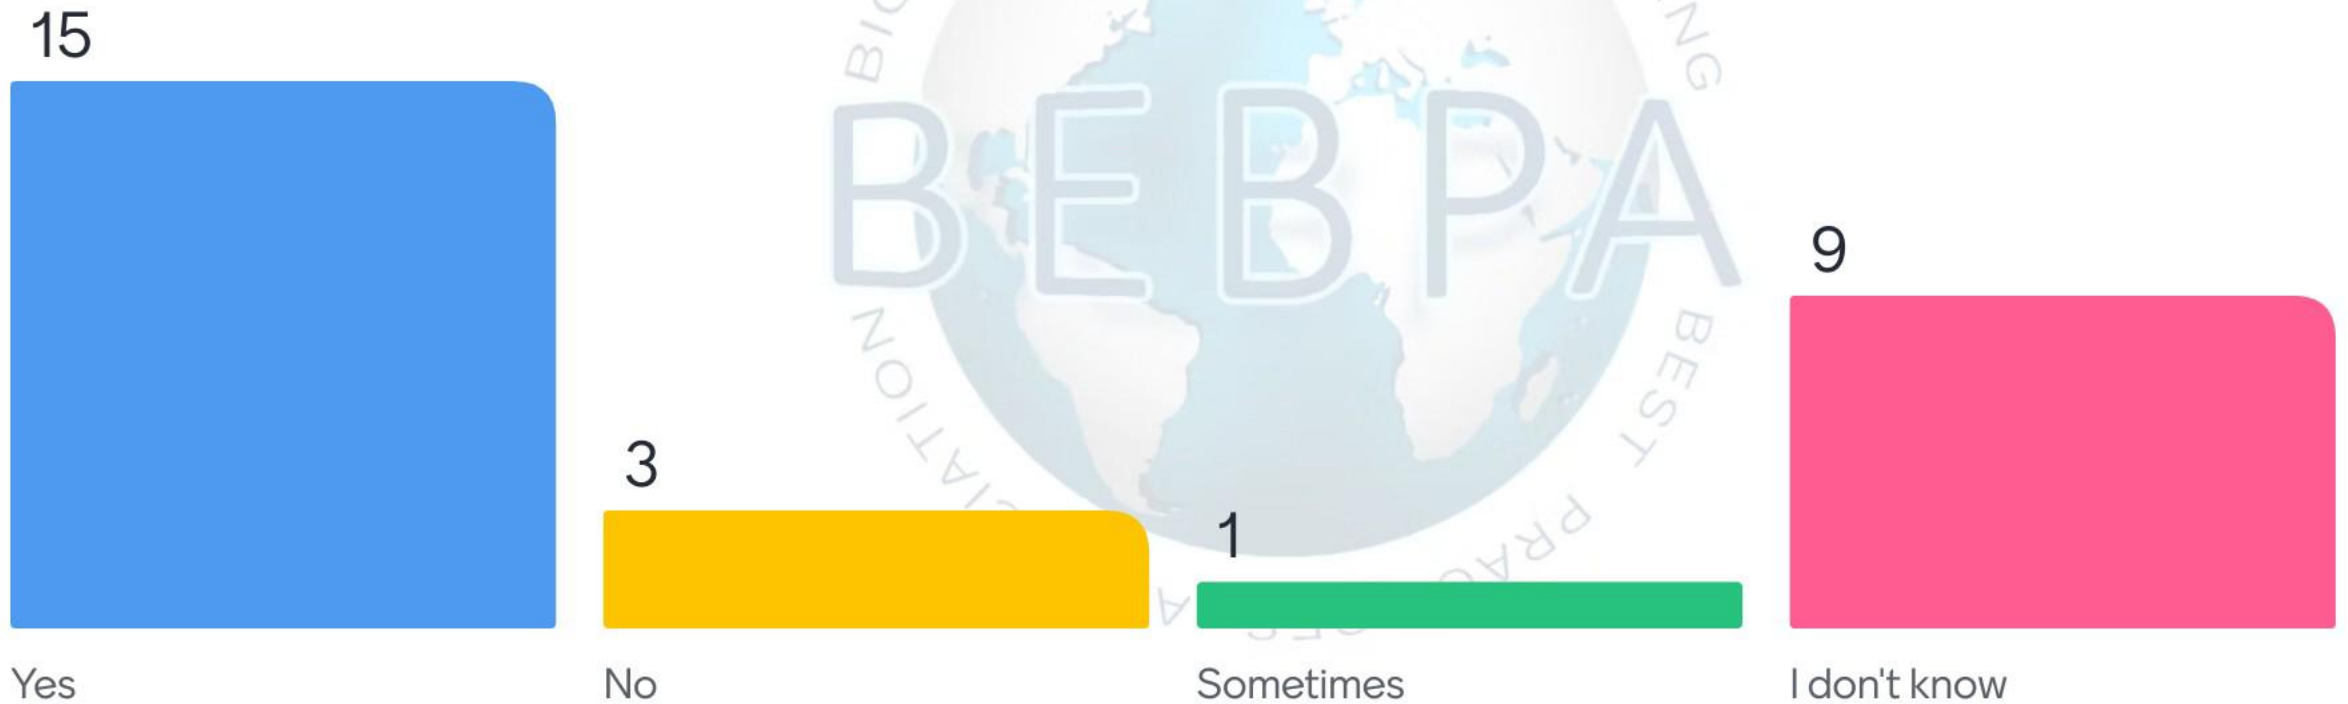

1.2 Do you have a 2-tier standard program for your products?

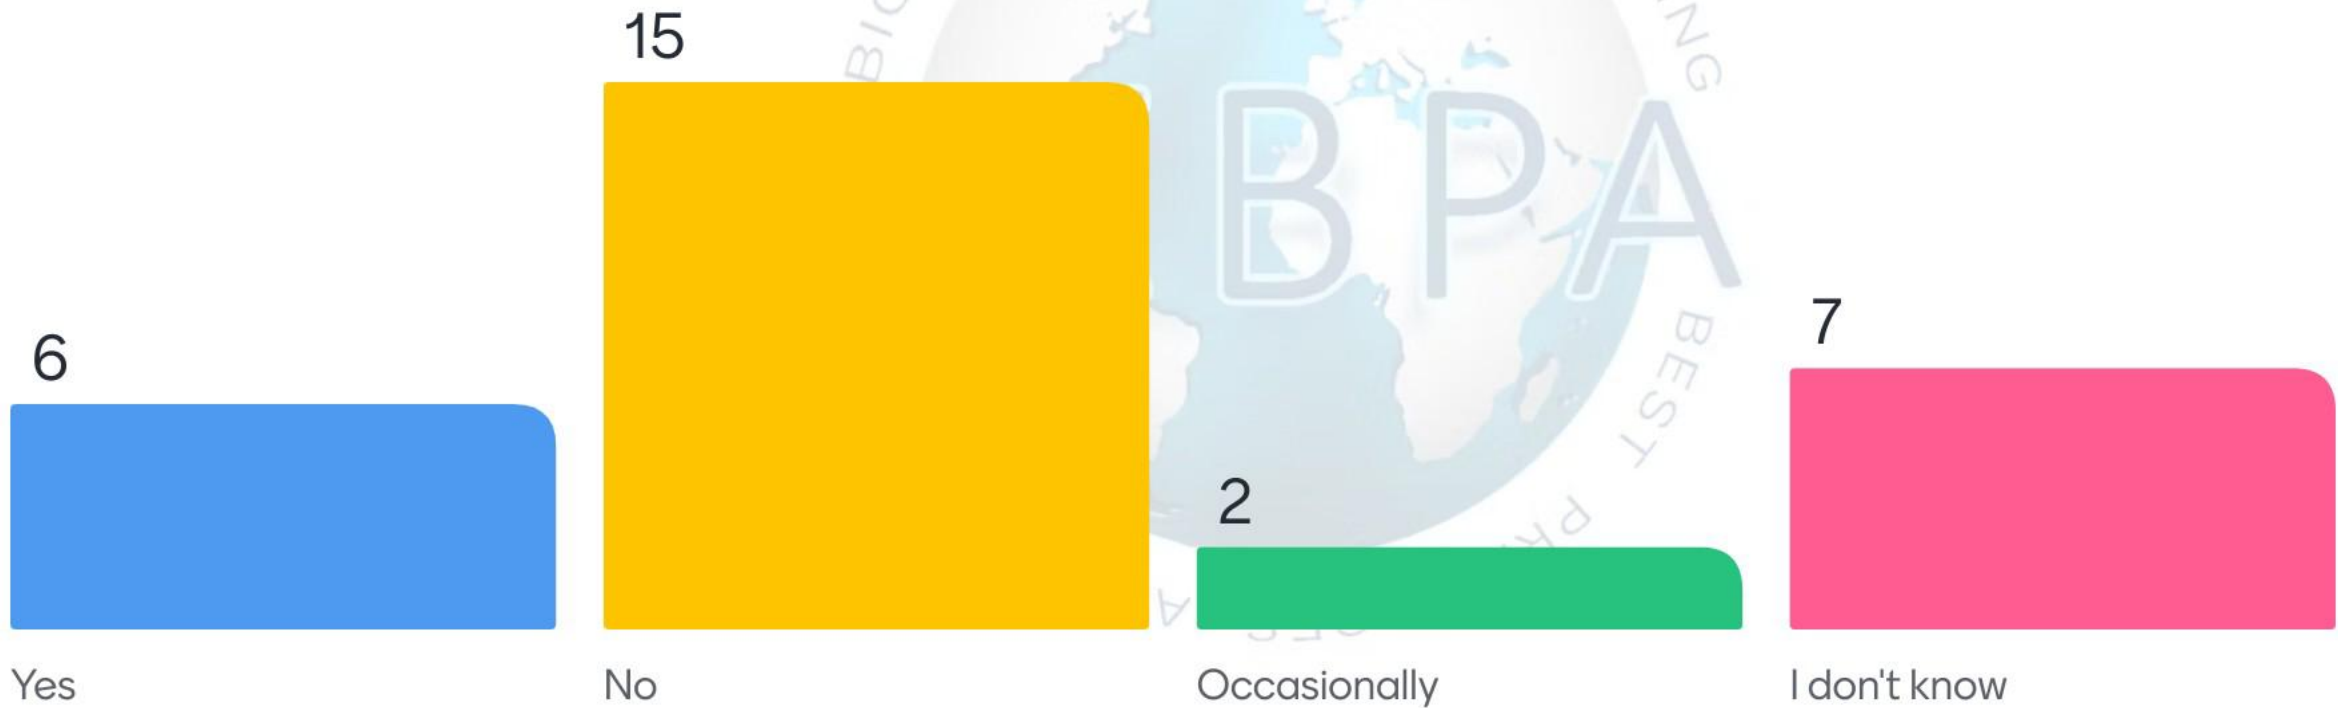

1.3 Do you have a reference standard group whose primary responsibility is to maintain and monitor RFM?

1.4 Do you include charge heterogeneity analysis for (re-)qualification of the potency standard?

1.5 Have you seen drift as a problem for your reference material?

1.6 For your Cellular or complex product is there sufficient product stability to potentially develop a two-tier reference program?

Thank you!!
