

BEBPA 2026 Flow Cytometry Conference

11-12 February 2026
Virtual Conference

Audience Survey

Day 1 - Intro

Introduction: Lauren Little
President
BEBPA

Audience Surveys

i.1 Which type of product do you work on?

i.2 How many years have you worked on flow cytometry methods?

i.3 What type of test samples do you analyze. (Choose all that apply)

Day 1

Session Chair: Virginia Litwin
Director of Scientific Affairs
Eurofins Clinical Trial Solutions

Audience Surveys

1.1 What is the biggest challenge for flow cytometry in QC?

1.2 What are the two biggest challenges your organization/community is having?

Response	#
Assay Standards	2
Cell Lot-to-Lot Variation	1
Comparability	2
Compensation	1
CSV	1
Donor Process Variability	1
Funding	1
Gating Consistency	9
Method Robustness	2
Operator Training	2
Panel Designing	1
Protocols and Software	1
Software Validation	1
Working Flow Cytometer	1

1.3 Does the approach by the NIST Flow Cytometry Standards Consortium meet the challenges you are facing?

1.4 Are standardized flow cytometric assays critical for your organization and community?

22

Yes

0

No

0

I'm not sure

1.5 Where do you use flow cytometry?

1.6 What type of controls do you include into your assay?

1.7 Are you already aware of CLSI H62?

1.8 Does your organization have a copy of CLIS H62?

1.9 If you have a copy, are you using it?

Thank you!!
